

Weekly report for 2008.02.24 – 2008.03.01

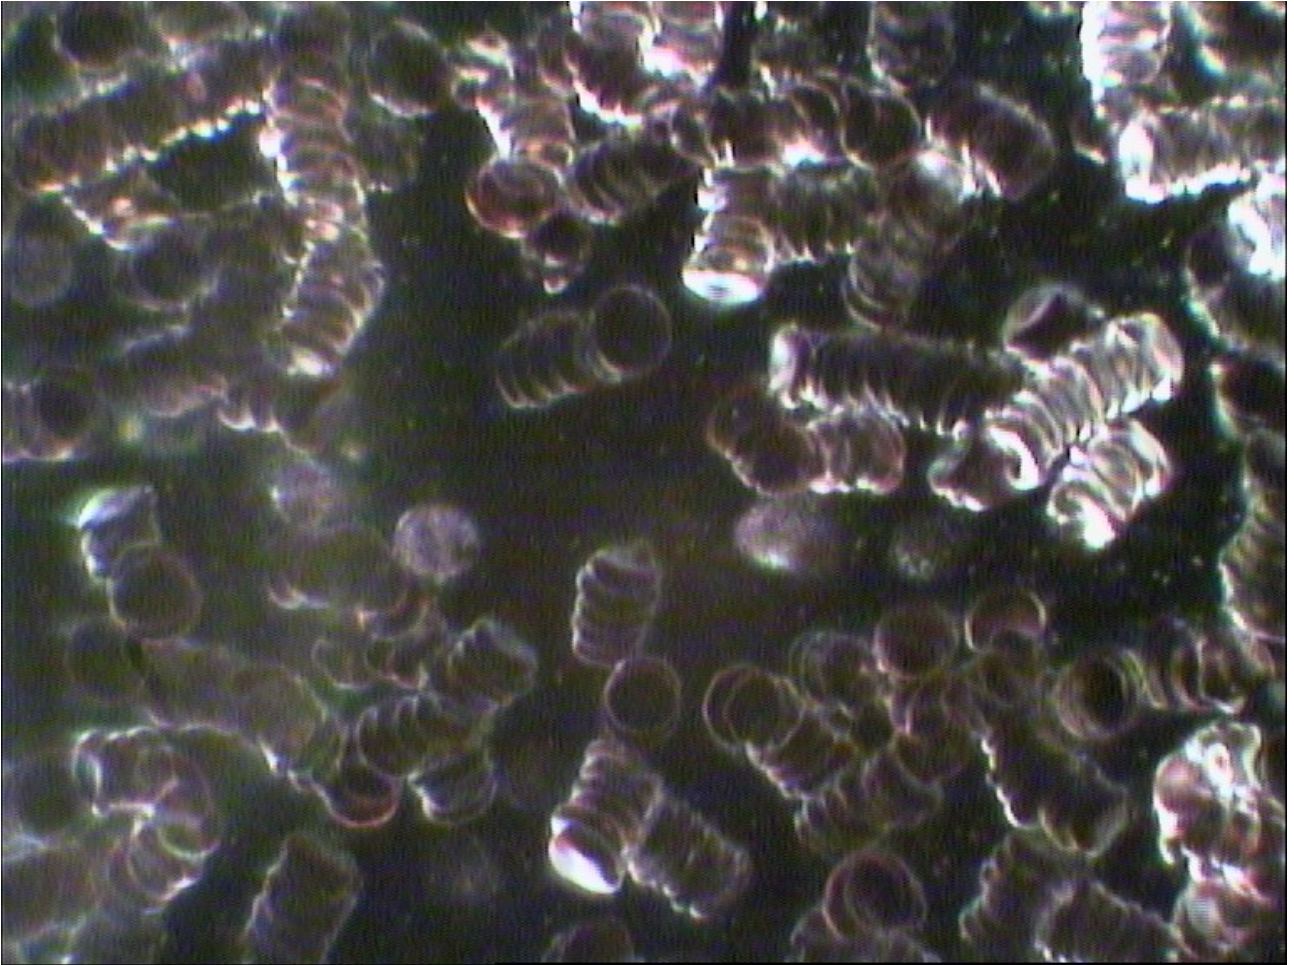

Name: Rolf Andreas  
 Age: 45  
 Height: 183 cm  
 Weight: 68 kg

Used equipment:

- thinkman trinity: device for ultrasonic hearing; „The thinkman® works on the basis of the body's own bio-compatible oscillations - frequencies from 30,000 to 144,000 Hertz. Brain and body can be harmonised and balanced in their activity by the application of bio-resonance frequencies. These frequencies can be used for specific relaxation as well as for increased concentration.“ (excerpt from the producers description)
- Panasonic cd-player connected to thinkman so I heard the sounds via ultrasonic hearing
- darkfield microscope (whenever my therapist was available)

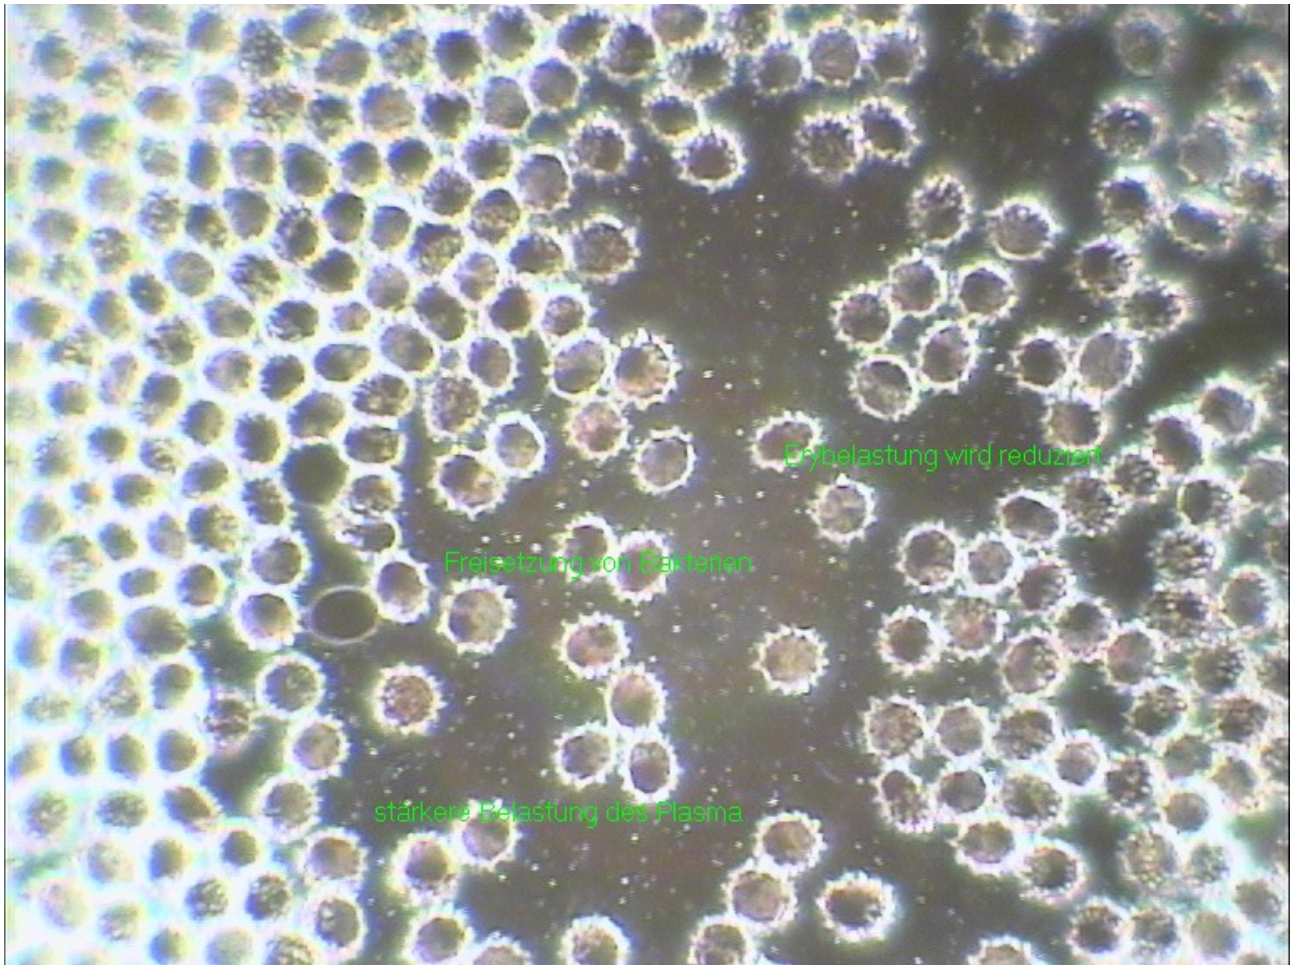

date	time	sounds	results	darkfield
2008.02.24	06:25 pm – 08:25 pm	quadruple loop of the sequence NT1-NT2-Biospark thinkman-frequency: wobble	body: - itching of arms and legs  emotional: - feeling refreshed - good mood	Before (6:05 pm): thick blood agglutinated erythrocytes (so-called money rolls)
				afterwards (08:40 pm): improved blood circulation bacterias are now outside of the erythrocytes in the plasma
2008.02.25	---			After sleep (07:25 am): blood thickened again because I did not drink enough water but was better than the day before
2008.02.26	11:45 pm – 05:30 am	quadruple loop of the sequence NT1-NT2-Biospark thinkman-frequency: relax	body: - good condition  emotional: - feeling refreshed - good mood	
2008.02.27	00:10 am – 03:40 am	quadruple loop of the sequence NT1-NT2-Biospark thinkman-frequency: relax	body: - good condition  emotional: - feeling refreshed - good mood	
2008.02.28	11:00 pm – 04:15 am	quadruple loop of the sequence NT1-NT2-Biospark thinkman-frequency: relax	body: - good condition  emotional: - feeling refreshed - aggressive, getting better after one hour	
2008.03.01	11:30 pm – 03:25 am	quadruple loop of the sequence NT1-NT2-Biospark thinkman-frequency: relax	body: - a little headache  emotional: - feeling okay - good mood	
2008.03.02	01:45 am – 04:25 am	quadruple loop of the sequence NT1-NT2-Biospark thinkman-frequency: relax	body: - good condition  emotional: - feeling refreshed - good mood	

2008-02-24 06:05 pm - before -

thick blood  
agglutinated erythrocytes

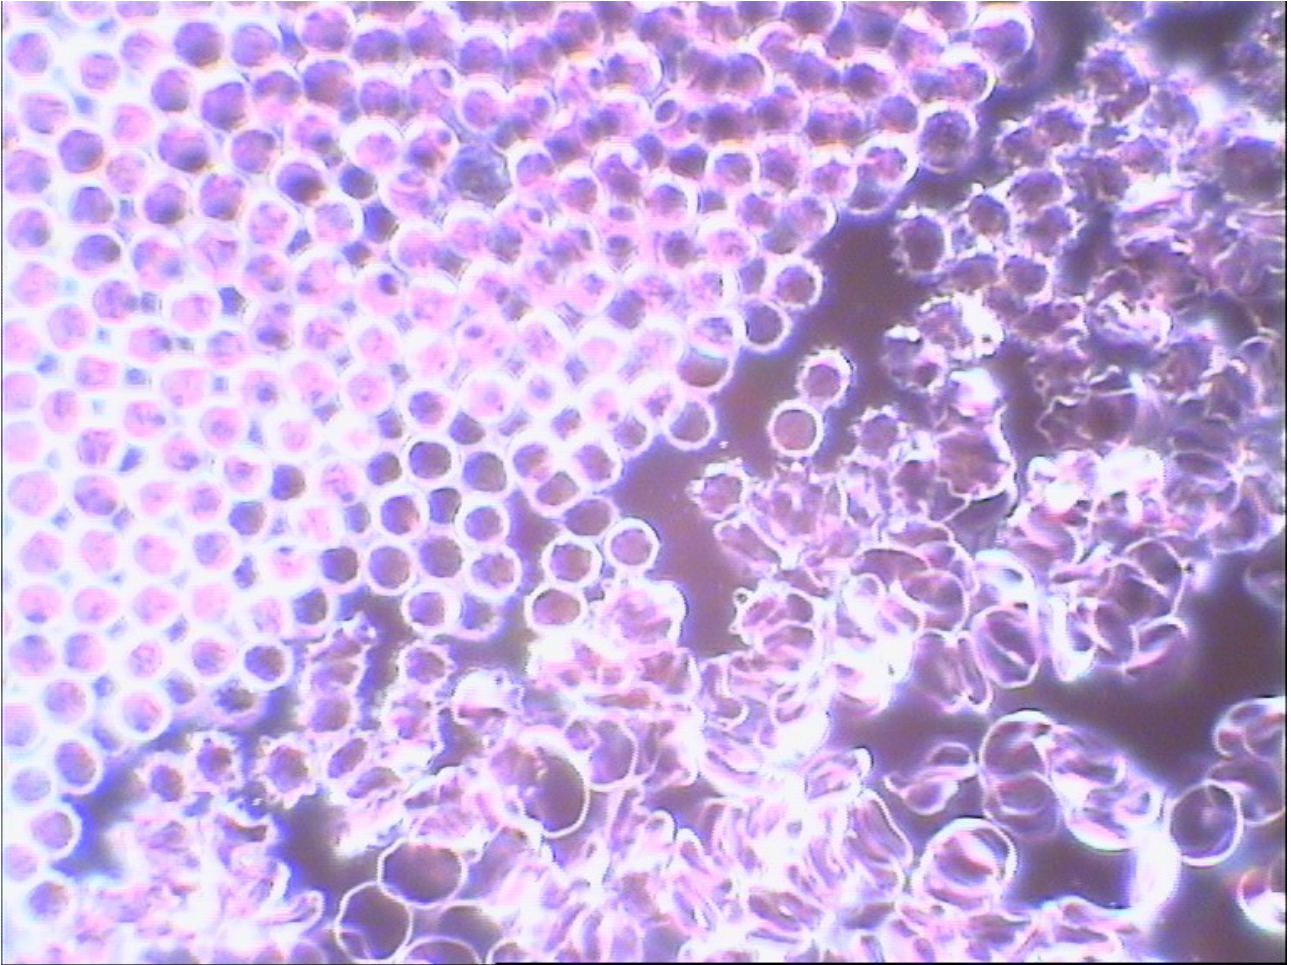

2008-02-24 08:40 pm

blood fluid  
no more agglutination of the erythrocytes  
release of bacteria  
stronger pollution of blood plasma

2008-02-25 07:25 am

agglutination beginning again

due to absence of my therapist I have no pictures of the following days

plan for 2008.03.02 – 2008.03.08:

listening to the sounds over hifi-equipment without thinkman to see if there is a significant difference between the normal hearing and ultrasonic hearing
